

ACCRS HO Facebook Group Rules

The idea of having a Facebook group is for members to share photos of their trains on the layout from events and to share layout updates and tips and tricks with the rest of the members as a learning experience. This group would be only for club members, but we can also create a page that the public can see that we can use to announce when we are open and operating and also completely overhaul the website as well. Having both a new website and the public Facebook business page would be a great way to attract potential new members as they can message the Facebook page with questions about how to join or just how we operate in general.

Allowed:

- Photos and videos from ops sessions and events.
- Tips and Tricks.
- The occasional railfan photos or videos of unusual trains around the Bay Area.

Not Allowed:

- Political Posts.
- Derogatory remarks and profanity directed at fellow members.
- Selling of items.

- Failure to follow these rules will result in immediate removal from the group

- Both the group and public page will be regularly monitored by Jamie and Marc and administrative access to the group page and public would be given to the board as well.
