Stout Auctions is proud to present one of the most significant brass model train collections that we have had in the history of Stout Auctions.

Stout Auctions will offer approximately 600 lots of brass trains in a spectacular one day sale. These trains are believed to be the last remaining, intact section, of the collection of Count Antonio Giansanti Coluzzi. Count Coluzzi's collection was famous around the world and was the subject of a 1984 book "The Trains on Avenue Rumine". The majority of the collection was sold by Christie's South Kensington in 1989. The trains in this collection were exported to the United States in 1987 and have remained together until now.

The sale will consist of both HO and O scale trains from manufactures such as KTM, Pacific Fast Mail, West Side Models, Tenshodo, Rokam, Mizuno, Toby, Max Gray, United, Dongjin, Samhongsas, and others. **This is an outstanding collector grade collection, all sold at no reserve.**

Do not miss this outstanding opportunity to own many of the finest brass trains ever produced.
