

ALAMEDA COUNTY FAIRGROUNDS

P L E A S A N T O N

February 11, 2019

Gary Lewis
7200 Earthart Road
Oakland, California 94621

Dear Gary,

Thank you for sharing your ACCRS Operating Proposal with me. And thank you and Phil for taking the time to meet with Angel and me to discuss the exciting future of the ACCRS.

It is clear to me that you and your members have put a great deal of thought into the future of the club and the railroad exhibit. I am inspired and excited to watch the improvements and learning opportunities come to fruition over the coming years. As you know, I am a big proponent of the railroad exhibit and believe it is a great asset for the annual summer Fair. It is highly trafficked and fits with our educational mission. We are actively making improvements that should make the exhibit even more accessible and increase traffic.

As I have explained in the past, there is no immediate or contemplated near future plans to remove the existing building the railroad exhibit is housed in. Without exception, programs, exhibits, organizations and business partners that continually improve, reinvest, grow and engage the community are most likely to receive the continued support from the Alameda County Agricultural Fair Association.

I look forward to visiting the ACCRS railroad exhibit at this years Fair to see all the great improvements we have discussed. I am confident that with your leadership the ACCRS will remain viable for years to come.

Thanks for sharing your future with us!

Jerome P. Hoban
Chief Executive Officer
